The Perfect Prescription

Dr. Okafor understood the intrinsic call of her spirit and the unquenchable desire to help, serve, and heal others. This aspiration drove her to pursue an education in the medical profession where she strived towards excellence. She devotedly collected her Bachelors of Science in Nursing degree in 2012, followed by a Masters of Science degree and license as a Family Nurse Practitioner in 2017. With a rising fervor, Dr. O went on to further her studies and obtained a second Masters of Science degree and license as a Psychiatric Mental Health Nurse Practitioner degree in 2019; and finished with her Doctorate in Nursing Practice degree at the end of 2020.

Dr. Okafor compassionately treats every patient with the utmost regard, honoring their unique physical, mental, and spiritual needs - no matter how diverse it may be. Fueled by an insatiable curiosity, she traversed the globe to uncover forgotten healing modalities. Dr. O's innovative practice brilliantly fused holistic, complementary, integrative and western medicine for a timeless approach.

She didn't stop there – as an IFBB pro, she added a physical component to the well-being of her patients, pushing them closer to their goals.

To many of her patients, she is known simply as 'Dr. O', a name that carries with it all the warmth and compassion she brings to every interaction. Her caring approach has seen her work in almost every area of healthcare, empowering clients to take back control of their lives and strive for remission without sacrificing quality of life.
